

AS TOLD IN CHICAGO

Chicago, March 8.—That the wireless may be used for a tenderer purpose than summoning help to a disabled ship became known today when the engagement of Miss Louise Gaylord to Walter F. Dillingham of Honolulu was announced. Dillingham proposed and was accepted in Honolulu while Miss Gaylord was miles away in midocean. They had known each other for three days only.

Mrs. Hough's Dinner.
Mrs. James Hough's dinner, given at the Moana Hotel on St. Patrick's Day, was a great success. The table was done in green, in honor of St. Patrick. The decorations were not only unique, but beautiful as well. Covers were arranged for eight. Large white carnations had been dipped in green dyes, and these flowers were arranged in a handsome green bowl of Tiffany glass and reposed on a bright green centerpiece. Cornucopias decorated with the shamrock and containing sprays of maidenhair fern were placed in front of the eight guests. Handsome bon bons were also used as favors. At the conclusion of the repast these bon bons were open-

ed and found to contain pretty green caps that were donned by the guests. The champagne glasses were tied with green satin ribbon and the salted almonds were in bright green bon bon dishes. The salads, soup and ices were carried out in green. Numerous candlesticks with green shades were arranged irregularly over the circular table. Mrs. and Miss Hough's guests were Mrs. James Saunders of San Francisco, Mr. and Mrs. Charles Chapin of New York, Mr. Percy Cloghoun, and Mr. Kohler.

The Doctor says "Drink beer" to the weak and convalescent. To those who need strength---need a food and a tonic.

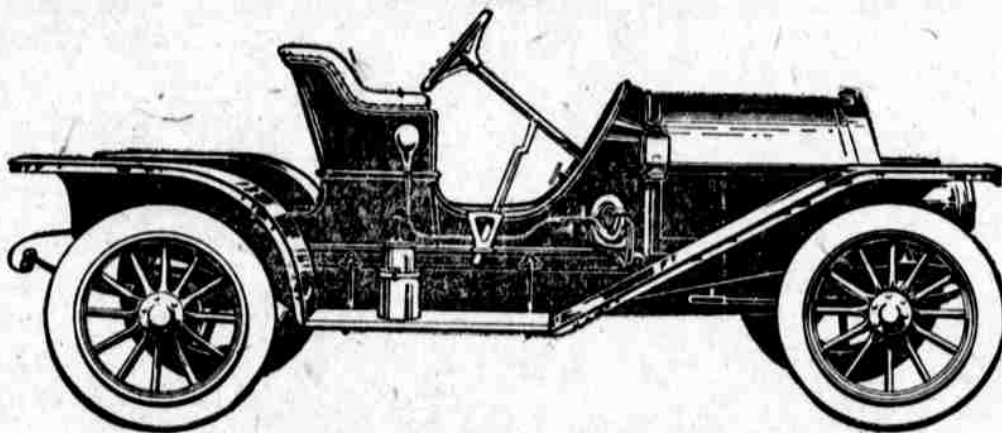

Many people need a tonic, who do not consult a doctor. There is a noticeable lack of energy in these people; a disinclination to make any unusual effort. Your friend's answer to your morning greeting is not a complaint; but there is no CHEERY return.

LACK OF ENERGY. THAT'S ALL.
Now that friend needs a tonic, and if he will drink pure beer he will have the benefit of the barley---a food, and the hops---a tonic. The trifle of alcohol is an aid to digestion.

The proper drinking of beer is the solution to "lack of energy." A pure beer and the beer to drink in Hawaii is

The Model "38" Overland

\$1000 f. o. b. Factory
Including 2 Gas Lamps, 3 Oil Lamps, Generator, Horn, Tools, Pump, and Repair Kit

THIS CAR is a model of simplicity. Just consider the control. It is literally as easy as walking. You put one foot forward to go ahead, and the rear for the reverse. The high speed only requires a push forward with the other foot on another pedal. That is all there is to it. Either pedal disengages the other. It is impossible to get into two speeds at once, or to inadvertently get into the reverse.

To drive these cars means "only pedals to push." The driver cannot go wrong, cannot strip his gears, cannot injure his car by an error in judgment. Any child can drive it.

You are invited to test for yourself this wonderfully simple and efficient OVERLAND Car.
